

Walk stably without overturning

Adopt rubber crawler and solid walking wheel, which has stronger grip.

Powerful engine

Equipped with compound air filter and large-capacity oil tank design, it can burn diesel engine oil, with low running noise and no noise, full combustion and continuous operation for more than 5 hours.

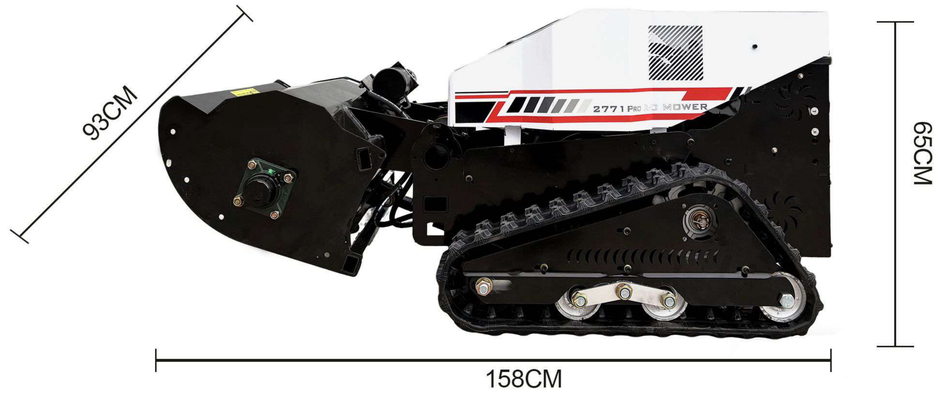

Remote-control handle

The remote control handle has high operating sensitivity, can accurately control the mowing range, and the maximum wireless distance is 300 meters, so weeding is easy.

Specifications

Basic

- **Machine size** 158*93*65cm
- **Machine weight** 322kg
- **Mowing width** 85cm
- **Cutting Height** 3-20cm
- **Starting mode** Electric starting
- **Track width** 15cm*2 pieces
- **Force type** Diesel four-stroke air cooling
- **Box capacity** 5.0L
- **Lifting mode** Remote hydraulic lifting.
- **Engine oil type** Four-stroke diesel engine oil

Mowing system

- **Number of blades** 48 (Groups 16 *3=48)
- **Generator** YM engine 1800W
- **Motor power** 600W*2，Operating stability grid: 24V20A
- **Spindle speed** 3600rpm
- **Working efficiency** 2000-5000m/H
- **Climbing performance** < 60°
- **Standard fuel consumption** 1.2L/H
- **Volume** 1.2-1.5L

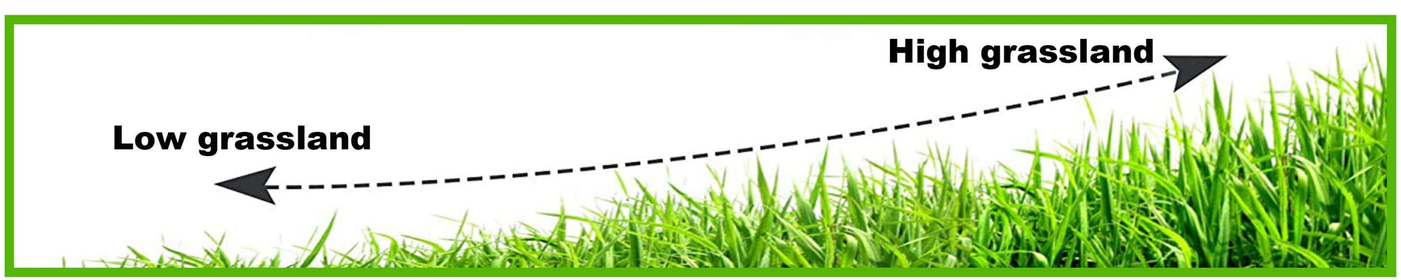

Cutting height

3cm-20cm

Vertical vertical knives are not afraid of stones, and are more suitable for cutting and crushing tall grass.

Easy start with one button

One-key control of grass cutting head lifting

MULTI-ENVIRONMENT USE

Efficient lawn mowing and green space maintenance can be applied to various scenes such as family courtyards, municipal parks, golf courses, highway green belts, etc., which significantly reduces the labor intensity of manual mowing and improves the working efficiency.
