550MM WORKING WIDTH

EFFICIENT LAWN CARE-REMOTE CONTROL OPERATION THAT SAVES 30% TIME

REMOTE
MORE SUITABLE FOR HOME USE

ADVANTAGES

NO EXHAUST, ZERO EMISSIONS

Travel motor parameters (brushed motor)	350W,75r/min
Mowing motor speed (brushless motor)	2000W,4500r/min
Battery parameters	48V-40AH 1920Wh
Working hours	2-3 hours
Cutting width	≤550mm
Standard charger	Input 220VOutput 54.75V-6A
Charging time	6-7 hours

Dimensions	98cm*88cm* 42cm
Machine weight	96kg
Battery weight	15.5kg
Packing weight	130kg
Mowing height	20-70mm
Chassis adiustment	Remote electric adjustment
Travel speed	0-3km/h
Remote control distance	≤200m
Machine power	2750W

CW-M500E

LITHIUM BATTERY-CONTROLLED LAWN MOWER

The remote intelligent lawn mower can automatically complete the mowing task through predefined programs or remote operation, without the need for manual continuous pushing or bending, greatly reducing physical exertion. It also allows users to adjust the mowing area, speed or direction in real time, especially suitable for complex terrain.

BLADE CUTTING

Spiral mulchers, made of boron steel, can adapt to highdense and strong mowing environments, and are moreefficient.

Remote control function introduction

1. *Cruise control*
2. *Cutter lifting adjustment*
3. *Snow shovel adjustment*
4. *Remote Control Lights*
7. *Emergency Stop*
8. *Remote start*
9. *Remote stop*
10. *Power*
11. *Forward, backward*
12. *Turn left and right*

THICKENED TRACK

The contact area between the crawler and the ground is large and the friction is strong.Triangular body structure increases body stability.

REMOTE CONTROLLER

Wireless integrated control system can start and stopremotely, without manual continuous push-pull or bendingoperation, adjust mowing area, speed or direction in real time,and stop with one button, which is safer;

APPLIED RANGE

Intelligent remote control lawn mower is suitable for family courtyard, small public green space, around the green of golf course, landscape lawn in villa area and agricultural experimental field, etc., and can complete mowing tasks conveniently and efficiently.

DESIGNED SPECIFICALLY FOR AREAS THAT CLASSIC LAWN MOWERS CANNOT REACH.
