CARTIWELL

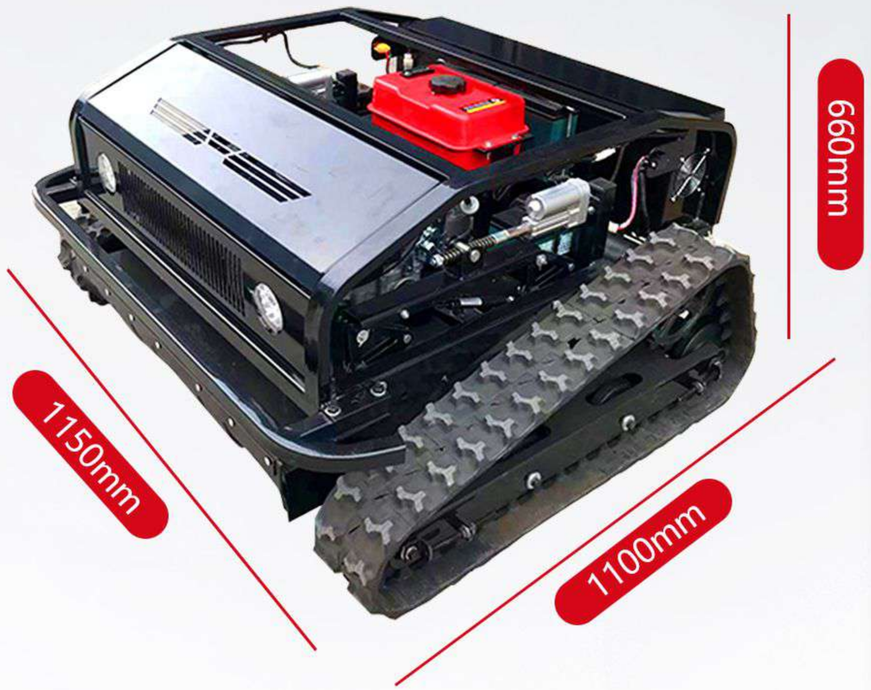

CW-M800
REMOTE LAWN MOWER

parameter

Machine size	1100*1150*660mm
Package size	1150*1200x840mm
Machine weight	255KG
Packing weight	310KG
Cutting width	800mm
Cutting height	20-150mm
Walking speed	5KM/H
Climbing	45°
Cutter adjustment	remote control lifting
Power	16HP
Fuel tank capacity	7.1L
Oil capacity	1.2L
Mowing efficiency	3800M2/H

REMOTE CONTROL

Wireless integrated control system can start and stop remotely, without manual continuous push-pull or bending operation, adjust mowing area, speed or direction in real time, and stop with one button, which is safer;

CONTROL PANEL

Power switches and other indicator lights are simple and easy to identify.

EFFICIENT CUTTING ABILITY

Steel push rod motor is more reliable; The winding of the walking motor is thickened, the power is increased, and it is more stable.

BLADE

Spiral mulchers, made of boron steel, can adapt to highdense and strong mowing environments, and are moreefficient.When cutting, the straw stems are evenly stressed and accurately cut.

THICKENED TRACK

Triangular body structure increases body stability.

REMOTE CONTROLLER
