CARTIWELL

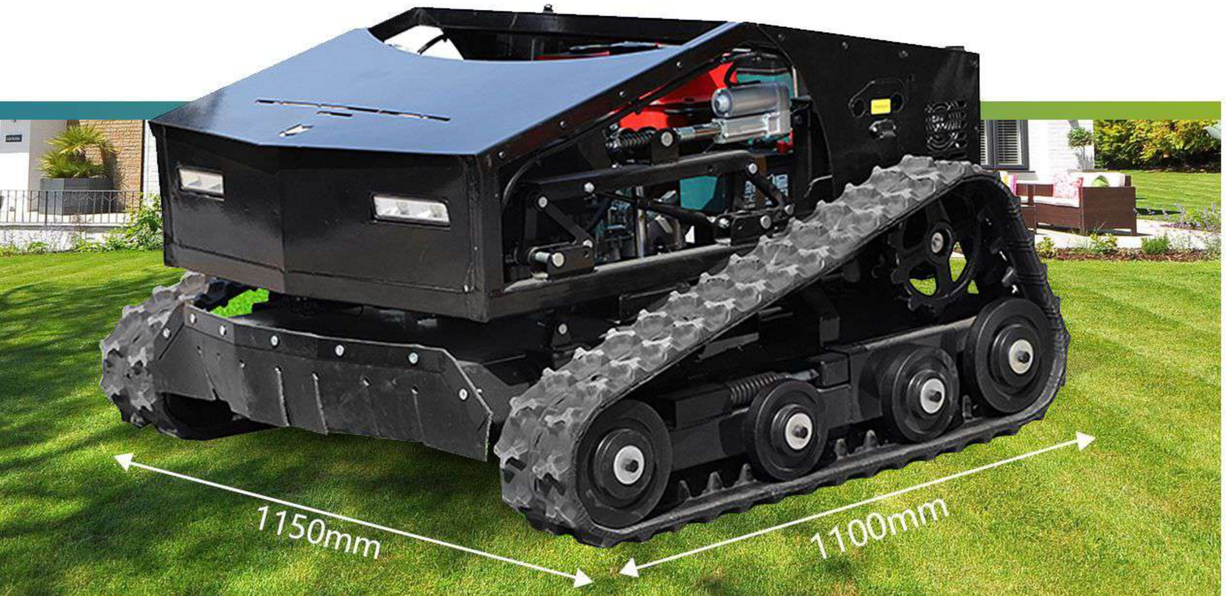

SMART REMOTE LAWN MOWER

CW-M800PLUS

Great choice for maintaining a beautiful lawn

parameter

Machine size	1100*1150*660mm
Package size	1150*1200*840mm
Machine weight	255KG
Packing weight	310KG
Cutting width	800mm
Cutting height	20-150mm
Walking speed	5KM/H
Climbing	45°
Cutter adjustment	remote control lifting
Power	16HP
Fuel tank capacity	7.1L
Oil capacity	1.2L
Mowing efficiency	3800M²/H

Remote control automatically completes mowing task.

REMOTE CONTROLLER

Wireless integrated control system can start and stop remotely, without manual continuous push-pull or bending operation, adjust mowing area, speed or direction in real time, and stop with one button, which is safer;

Triangular body structure increases body stability.

THICKENED TRACK

Efficient cutting ability

Spiral mulchers, made of boron steel, can adapt to highdense and strong mowing environments, and are moreefficient;If the cutting blade flies at high speed. Hanging the coat will protect the operator from injury.

Full of power, the engine meets the emission standards.

Powerful engine

Steel push rod motor is more reliable; The winding of the walking motor is thickened, the power is increased, and it is more stable.

Equipped with dual beam headlights
